SPECIES ELECTION UNDER 35 U.S.C. § 133

In response to the Office communication dated January 2,
1998, please amend the above referenced application as follows:

In the Claims:

Please add the following claim:

--Claim 14. Apparatus for cooling the brain of a patient,
said apparatus comprising:

- a) a thermally conductive element,
b) means for positioning said thermally conductive
element in localized contact with soft tissue in the cranio-
cervical region of said patient, and
c) means for cooling said thermally conductive
element, whereby said brain is cooled by conduction of blood
flowing through blood vessels in said soft tissue contiguous to
said brain.--

Applicant respectfully traverses the requirement for

election in view of the generic Claim 14 added above.

If no claim is found generic, Applicant elects Claims 7-13
inclusive directed to the endotracheal version of the invention
